Electrophysiology and pharmacology of cardiac arrhythmias, cardiac effects of quinidine and procaine amide, A (Hoffman, Rosen, and Wit), 804
causes and treatment of cardiac arrhythmias, part A (Hoffman, Rosen, and Wit), 115, part B, 253
cardiac antiarrhythmic and toxic effects of digitalis (Rosen, Wit, and Hoffman), 391
cardiac antiarrhythmic effects of lidocaine (Rosen, Hoffman, and Wit), 526
cardiac effects of verapamil (Rosen, Wit, and Hoffman), 665
of atrial pacing in patients with short PR interval, normal QRS complex (Iannone), 74
Embolectomy, pulmonary, partial cardiopulmonary bypass and (Dalen, Dexter, and Alpert), 543
role of (Beall and Collins), 411
treatment of massive pulmonary embolism, role of (Alpert et al.), 413
Embolism, myocardial infarction, and pulmonary edema, P-wave analysis in (Abraham), 301
pulmonary, massive, treatment of, role of pulmonary embolectomy (Alpert et al.), 413
urokinase in thromboembolic disease (Sasahara, Stengle, and Sherry), 403
Endocardial lesions, papillary, from mural thrombus, development of cardiac myxomas and (Salyer, Page, and Hutchins), 4
Endocarditis, bacterial, in idiopathic hypertrophic subaortic stenosis (Wang, Gobel, and Gleason), 359
Epicardial electrodes, use of moving, in defining ST-segment changes after acute coronary occlusion in baboon, relation to primary ventricular fibrillation (Bruyneel), 731
Exercise tests, positive submaximal, in patients with chest pain, correlation of critical left coronary artery lesions with (Cheitlin et al.), 305

F

Fascia lata reconstruction of right ventricular outlet, late hemodynamic results of (Macartney, Scott, and Ionescu), 195
Femoral artery puncture, dangers of, and catheterization, (Morris and Bouhoutsos), 260 (Annot.)
Fibrillation, primary ventricular, use of moving epicardial electrodes in defining ST-segment changes after acute coronary occlusion in baboon, relation to (Bruyneel), 731
threshold, effect of ventricular aberrancy on (Yoon, Han, and Fabregas), 599
Function curves, ventricular (Cheng), 406

G

Gauge, pressure, jugular venous, a bedside device to measure jugular venous pressure (Chopra), 818 (Letter to Editor)
Geriatric cardiology, interesting aspects of (Burch), 99

H

Heart block, complete, and aortic and mitral valvular heart disease, hemodynamic changes during ventricular pacing in patients with, (Rosenquist, Gobel, and Wang), 144
dogs with, effect of stimulation site on ventricular threshold in (Hughes and Tyres), 68
collateralized, with chronic coronary occlusion, influence of perfusion pressure and heart rate on local myocardial flow in, (Flameng et al.), 51
disease, congenital, ultrasound in diagnosis of (Murphy et al.), 638
rate, direct, arterial pressure, and electrocardiogram during cigarette smoking in unrestricted patients (Cellina, Honour, and Littler), 18
on local myocardial flow in collateralized heart with chronic coronary occlusion, influence of perfusion pressure and (Flameng et al.), 51
sounds, mechanisms of (Kostis), 546
Hemodynamic changes during ventricular pacing in patients with complete heart block and aortic and mitral valvular heart disease (Rosenquist, Gobel, and Wang), 144
effects of chlorothiazide, mechanisms of immediate (Lohmöller et al.), 487
observations, serial, in congenital valvular and subvalvular aortic stenosis (Mody and Mody), 137
parameters in borderline hypertension, vascular reactivity to norepinephrine and (Safar et al.), 480
results, late, of fascia lata reconstruction of right ventricular outlet (Macartney, Scott, and Ionescu), 195
His bundle electrocardiographic analysis of cardiac conduction in pediatric and adolescent patients (Cohen, Samet, and Yeh), 311
Home, need for more care at (Burch), 402 (Annot.)
Hufnagel tri-leaflet prostheses, cardiac pathology after aortic valve replacement, a study of 20 necropsy patients (Fishbein et al.), 443
Hyperkalemia in man, disorders of impulse conduction and impulse formation caused by (Cohen, Rosen, and Wit), 501
Hypertension, borderline, vascular reactivity to norepinephrine and hemodynamic parameters to (Safar et al.), 480
essential, circulating renin in, an evaluation of significance in Japanese population (Abe et al.), 723
comparison of timolol and propranolol in (Lohmöller and Frohlich), 437
in childhood, detection of (Buck), 540
pulmonary, reversal of inoperable (Kawabori, Morgan, and Guntheroth), 775
spontaneous, role of kidney in (Coleman et al.), 94

I

^{125}I-labelled antigen, serum digoxin levels using an, validation of method and observations on cardiac patients (Taubert and Shapiro), 79
^{131}I-MAA, measurment of right ventricular volumes using (Sekimoto and Grover), 212
Idioventricular rhythm, sustained accelerated, (Basu and Scheinman), 227
IgM antibody, rubella-specific, as an aid to diagnosis of acquired and congenital rubella (Gupta), 258 (Annot.)

Impulse conduction, disorders of, and impulse formation caused by hyperkalemia in man (Cohen, Rosen, and Pick), 501
formation, effects of lidocaine on, and conduction defects in man (Roos and Dunning), 686
transmission with special reference to A-V conduction, factors controlling (Watanabe and Dreifus), 790
Infarction, myocardial, acute, blood levels of lidocaine after various infusion rates in patients with (Rydén et al.), 470
acute, phentolamine and (Madias and Hood), 406
in newborn, a case report complicated by cardiogenic shock and associated with normal coronary arteries (Iannone, Duritz, and McCarty), 232
pulmonary edema, and embolism, P-wave analysis in (Abraham), 301
transmural, acute, associated with active Coxsackie virus B infection (Woods et al.), 283
postmyocardial, sexual activity and (Green), 246
Infection, Coxsackie virus B, acute transmural myocardial infarction associated with (Woods et al.), 283
Infusion test, angiotensin, as method of evaluating left ventricular function (Ronan et al.), 554
Inotropic effects of tolbutamide in man (Young et al.), 189
Intracardiac electrography in children and young adults (Gillette et al.), 36
Ischemic arterial diseases, epidemiological emergence of (Walker), 133 (Editorial)
attacks, cerebral, transient tachyarrhythmias and (Van Durme), 538
heart disease, dietary sucrose in relation to development of (Opie), 674 (Annot.)
ST-segment depression and dyspnea, (Kennedy and Underhill), 544
Isometric contraction time, use of echocardiography to measure (Ziady, Hardarson, and Curiel), 200
Isoproterenol toxicity (Winsor and Wright), 814 (Annot.)

J

Jugular venous pressure gauge, a bedside device to measure jugular venous pressure (Chopra), 818 (Letter to Editor)

K

Kidney, role of, in spontaneous hypertension (Coleman et al.), 94

L

Legs, keep up (Burch), 678 (Annot.)
Left atrial pressure, determination of zero reference level for, by echocardiography (Chandraratna), 159
axis deviation, etiologic factors in one-hundred patients (Grayzel and Neyshaboori), 419
Lesions, coronary artery, left, correlation of critical, with positive submaximal exercise tests in patients with chest pain (Cheitlin et al.), 305
myocardial, angiotensin- and norpinephrine-induced, experimental and clinical studies in rabbits and man (Gavras et al.), 321
papillary endocardial, from mural thrombus, development of cardiac myxomas and (Salyer, Page, and Hutchins), 4
Lidocaine and external potassium concentration, interrelationships between, effects on canine Purkinje fiber (Obayashi, Hayakawa, and Mandel), 221
blood levels of, after various infusion rates in patients with acute myocardial infarction (Rydén et al.), 470
cardiac antiarrhythmic effects of, electrophysiology and pharmacology of cardiac arrhythmias (Rosen, Hoffman, and Wit), 526
effects of, on impulse formation and conduction defects in man (Roos and Dunning), 686
Lung, treatment of oat cell carcinoma of (Bates), 675 (Annot.)

M

Mexiletine (Talbot), 537 (Annot.)
Mind, of one (Burch), 127 (Annot.)
Mitral stenosis, opening snap in (Craige and Fortuin), 128 (Letter to Editor)
relationship of pulmonary artery diastolic and pulmonary artery wedge pressure in (Manjuran, Agarwal, and Roy), 207
valvular heart disease, aortic and, hemodynamic changes during ventricular pacing in patients with complete heart block and (Rosenquist, Gobel, and Wang), 144
Mortality statistics, heart disease, what do they tell us (Wheatley), 683
Myocardial flow, local, influence of perfusion pressure and, in the collateralized heart with chronic coronary occlusion (Flameng et al.), 51
infarction, acute, blood levels of lidocaine after various infusion rates in patients with (Rydén et al.), 470
phentolamine and (Madias and Hood), 406
in newborn, a case report complicated by cardiogenic shock and associated with normal coronary arteries (Iannone, Duritz, and McCarty), 232
pulmonary edema, and embolism, P-wave analysis in (Abraham), 301
transmural, acute, associated with active Coxsackie virus B infection (Woods et al.), 283
lesions, angiotensin- and norepinephrine-induced, experimental and clinical studies in rabbits and man (Gavras et al.), 321
necrosis, different types of, in coronary heart disease, a pathophysiologic review of functional significance (Baroldi), 742
oxygen consumption, altered, after coronary occlusion in anesthetized dogs (Ramakrishna et al.), 333
perfusion imaging with ^{99m}Tc and ^{113m}In macroaggregated albumin: correlation of the perfusion image with clinical, angiographic, surgical, and histologic findings (Hamilton et al.), 708
Myxomas, cardiac, development of, and papillary endocardial lesions from mural thrombus (Salyer, Page, and Hutchins), 4

N

Necrosis, myocardial, different types of, in coronary heart disease, a pathophysiologic review of functional significance (Baroldi), 742
Nervous system, sympathetic, and long Q-T syndrome, T-wave, electrical alternation of, and experimental evidence of its relationship with (Schwartz and Malliani), 45
Neural influences, autonomic, on the cardiovascular changes induced by coronary occlusion, effect of (Corr and Gillis), 766
Newborn, myocardial infarction in, a case report complicated by cardiogenic shock and associated with normal coronary arteries (Iannone, Duritz, and McCarty), 232
Nitrates, chronic exposure to, evidence for physiologic nitrate dependence, nonocclusive coronary disease after chronic exposure to (Klock), 510
Norepinephrine- and angiotensin-induced myocardial lesions, experimental and clinical studies in rabbits and man (Gavras et al.), 321
and hemodynamic parameters in borderline hypertension, vascular reactivity to (Safar et al.), 480

O

Oat-cell carcinoma of lung, treatment of (Bates), 675 (Annot.)
Occlusion, coronary, acute, in baboon, relation to primary ventricular fibrillation, use of moving epicardial electrodes in defining ST-segment changes after (Bruyneel), 731
chronic influence of perfusion pressure and heart rate on local myocardial flow in collateralized heart with (Flameng et al.), 51
effect of autonomic neural influences on the cardiovascular changes induced by (Corr and Gillis), 766
in anesthetized dogs, oxygen consumption, myocardial, altered, after (Ramakrishna et al.), 333

Occlusive vascular change in lungs of rabbits, packed cells, platelet-rich plasma, and adenosine diphosphate in production of (Mahesree, Chakravarti, and Wahi), 753
Oral contraceptive use, retrospective case control study of diseases associated with (Greenblatt), 677 (Annot.)
Oxygen consumption, myocardial, altered, after coronary occlusion in anesthetized dogs (Ramakrishna et al.), 333

P

P-wave analysis in myocardial infarction, pulmonary edema, and embolism (Abraham), 301
Pacing, atrial, electrophysiology of, in patients with short PR interval, normal QRS complex (Iannone), 74
permanent, in disorders of sinus node function (Krishnaswami and Geraci), 579
Papillary endocardial lesions, from mural thrombus, development of cardiac myxomas and (Salyer, Page, and Hutchins), 4
Perfusion imaging, myocardial, with ^{99m}Tc and ^{113m}In macroaggregated albumin: correlation of the perfusion image with clinical, angiographic, surgical, and histologic findings (Hamilton et al.), 708
pressure, influence of, and heart rate on local myocardial flow in collateralized heart with chronic coronary occlusion (Iannone), 51
Pericardial effusion, bacteroides, and cardiac tamponade in patient with chronic renal failure (Harris, Benchimol, and Desser), 629
Pericardium, left, thymoma masquerading as congenital partial absence of (Francis et al.), 91
Phentolamine and acute myocardial infarction (Madias and Hood), 405
Platelet functions in patients with aortic ball-valve prostheses, effects of dipyridamole and acetylsalicylic acid on (Dale, Myhre, and Rootwelt), 613
Potassium concentration, external, and lidocaine, interrelationships between, effects on canine Purkinje fiber (Obayashi, Hayakawa, and Mandel), 221
PR-interval, short, normal QRS complex, electrophysiology of atrial pacing in patients with (Iannone et al.), 74
Pressure, blood, of recording your own (Burch), 813 (Annot.)
Pressure gauge, jugular venous, a bedside device to measure jugular venous pressure (Chopra), 818 (Letter to Editor)
gradient, mean, calculation of, in aortic valvular stenosis, a simplified approach (Peterson et al.), 126 (Annot.)
perfusion, influence of, and heart rate on local myocardial flow in collateralized heart with chronic coronary occlusion (Flameng et al.), 51
Prinzmetal's variant angina (Fazzini and Marchi), 263 (Letter to Editor)
Propranolol and timolol, comparison of, in essential hypertension (Lohmöller and Frohlich), 437
in orthostatic tachycardia (Barch and Lawrence), 543
Prostheses, aortic ball-valve, effects of dipyridamole and acetylsalicylic acid on platelet functions in patients with (Dale, Myhre, and Rootwelt), 613
Hufnagel tri-leaflet, cardiac pathology after aortic valve replacement, a study of 20 necropsy patients (Fishbein et al.), 443
Pseudocoarctation or congenital kinking of the aorta, radiologic considerations (Hoeffel et al.), 428
Pulmonary artery diastolic and pulmonary artery wedge pressure in mitral stenosis, relationship of (Manjuran, Agarwal, and Roy), 207
edema, myocardial infarction, and embolism, P-wave analysis in (Abraham), 301
embolectomy, partial cardiopulmonary bypass and (Dalen, Dexter, and Alpert), 543
role of (Beall and Collins), 411
embolism, massive, treatment of, role of pulmonary embolectomy (Alpert et al.), 413
urokinase in thromboembolic disease (Sasahara, Stengle, and Sherry), 403
Pulmonary — continued
hypertension, reversal of inoperable (Kawabori, Morgan, and Guntheroth), 775
Purgatives, saline, mode of action of (Harvey and Read), 810 (Annot.)
Purkinje fiber, canine, interrelationships between external potassium concentration and lidocaine, effects on (Obayashi, Hayakawa, and Mandel), 221

Q

QRS complex, normal, electrophysiology of atrial pacing in patients with short PR interval (Iannone), 74
Q-T syndrome, electrical alternation of T-wave, clinical and experimental evidence of its relationship with sympathetic nervous system and with (Schwartz, and Malliani), 45
long (Schwartz, Periti, and Malliani), 378

R

R-on-T phenomenon, new method for automated detection of (Breithardt et al.), 759
Rabbit lungs, packed cells, platelet-rich plasma, and adenosine diphosphate in production of occlusive vascular changes in (Mahesree, Chakravarti, and Wahi), 753
Refractoriness, differential, demonstration of, within a single fascicle of the human ventricular specialized conduction system (Cannom, Goldreyer, and Damato), 779
Renal failure, acute, associated with cephalosporin therapy (Fillastre and Kleinknecht), 809 (Annot.)
chronic, bacteroides pericardial effusion and cardiac tamponade in patient with (Harris, Benchimol, and Desser), 629
Renin, circulating, in essential hypertension, an evaluation of significance in Japanese population (Abe et al.), 723
Repolarization, sequence of, on ventricular surface in dog (Autenrieth, Surawicz, and Kuo), 463
Respiratory failure, type of cardiac dysrhythmias in (Sideris et al.), 32
Response curves, experimental (Röhl et al.), 262 (Letter to Editor)
Resuscitation, cardiac, complications of (Atcheson and Fred), 263 (Letter to Editor)
Revascularization surgery, direct, coronary artery anatomy before and after, clinical and cinearteriographic studies in 67 selected patients (Levine), 561
Rubella-specific IgM antibody as an aid to diagnosis of acquired and congenital rubella (Gupta and Murphy), 258 (Annot.)

S

Saline purgatives, mode of action of (Harvey and Read), 810 (Annot.)
Serum digoxin levels, arrhythmias following cardiac surgery, relation to (Rose, Glassman, and Spencer), 288
using an ^{125}-I-labelled antigen, validation of method and observations on cardiac patients (Taubert and Shapiro), 79
Sexual activity and postmyocardial infarction (Green), 246
Sick-sinus syndrome in Africans (Ikeme, D'Arbela, and Somers), 295
Sinus node function, permanent pacing in disorders of (Krishnaswami and Geraci), 579
Sounds, heart, mechanisms of (Kostis), 546
ST-segment changes after acute coronary occlusion in baboon, relation to primary ventricular fibrillation, use of moving epicardial electrodes in defining (Bruyneel), 731
depression, ischemic, and dyspnea (Kennedy and Underhill), 544
elevation, transient, with postmyocardial infarction angina, prognostic significance, (Stenson et al.), 449
Statistics, mortality, heart disease, what do they tell us (Wheatley), 683

Steal syndrome, inter-coronary, resulting from aortocoronary bypass surgery (Befeler et al.), 633
Stenosis, aortic, congenital valvular and subvalvular, serial hemodynamic observations in (Mody and Mody), 137
valvular, calculation of mean pressure gradient in, a simplified approach (Weber and Janicki), 126 (Annot.)
coronary artery, mechanism of effect of, on coronary flow in dog (Lipscomb and Gould), 60
idiopathic hypertrophic subaortic, bacterial endocarditis in (Wang, Gobel, and Gleason), 359
mitral, opening snap in, (Craige and Fortuin), 128 (Letter to Editor)
relationship of pulmonary artery diastolic and pulmonary artery wedge pressure in (Manjuran, Agarwal, and Roy), 207
Sucrose, dietary, in relation to development of ischemic heart disease (Opie), 674 (Annot.)
Syndrome, Q-T, long (Schwartz, Periti, and Malliani), 378
sick-sinus, in Africans (Ikeme, D'Arbela, and Somers), 295
Systolic time intervals at graded work loads, immediate cardiac response to exercise, physiologic investigation by (Xenakis, Quarry, and Spodick), 178

T

T-wave, electrical alternation of, and experimental evidence of its relationship with sympathetic nervous system and with long Q-T syndrome (Schwartz and Malliani), 45
Tachyarrhythmias and transient cerebral ischemic attacks (Van Durme), 538
Tachycardia, orthostatic, propranolol in (Barch and Lawrence), 543
ventricular (Fisch and Noble), 551
Tamponade, cardiac (Monassier and Marsaud), 679 (Letter to Editor) Reply, 679
in patient with chronic renal failure, bacteroides pericardial effusion and (Harris, Benchimol, and Desser), 629
Testing, use of multiple choice questions in (Dudley), 400
Threshold, ventricular, in dogs with heart block, effect of stimulation site on (Hughes and Tyres), 68
Thromboembolic disease, urokinase in, pulmonary embolism (Sasahara, Stengle, and Sherry), 403
Thrombosis, venous, site of origin of, (Allenby and Jeyasingh), 123 (Annot.)
Thrombus, mural, development of cardiac myxomas and papillary endocardial lesions from (Salyer, Page, and Hutchins), 4
Thymoma masquerading as congenital partial absence of left pericardium (Francis et al.), 91
Timolol and propranolol, comparison of, in essential hypertension (Lohmöller and Frohlich), 437
Tolbutamide, inotropic effects of, in man (Young et al.), 189
Toxicity, isoproterenol (Winsor and Wright), 814 (Annot.)
Trabeculae carneae, a thought (Burch), 261 (Annot.)
Training programs, diffuse (Burch), 541 (Annot.)
Transmural myocardial infarction, acute, associated with active Coxsackie virus B infection (Woods et al.), 283
Tricuspid valve attachments, normal variations in, to membranous ventricular septum, clue to etiology of left ventricle to right atrial communication (Rosenquist and Sweeney), 186

U

Ultrasound in diagnosis of congenital heart disease (Murphy et al.), 638
Unity, a plea for, ?IHSS. ?HOCM. ?ASH (Goodwin), 269
Urokinase in thromboembolic disease, pulmonary embolism (Sasahara, Stengle, and Sherry), 403

V

Vagal nerve stimulations, small, direct and reflex cardiac bradydysrhythmias from (Hageman, Randall, and Armour), 338
Valvular stenosis, aortic, calculation of mean pressure gradient in, a simplified approach (Weber and Janicki), 126 (Annot.)
Vascular change, occlusive, in lungs of rabbits, packed cells, platelet-rich in plasma, and adenosine diphosphate in production of (Mahesree, Chakravarti, and Wahi), 753
reactivity to norepinephrine and hemodynamic parameters in borderline hypertension (Safar et al.), 480
Vasospasm, cerebral, some considerations on (Peterson et al.), 124 (Annot.)
Velocities, aortic blood-flow, in man, transcutaneous determination of (Huntsman et al.), 605
Venous thrombosis, site of origin of (Allenby and Jeyasingh), 123 (Annot.)
Ventricle, right, double chamber, experience with 17 cases (Rowland, Rosenthal, and Castaneda), 455
Ventricular aberrancy, effect of, on fibrillation threshold (Yoon, Han, and Fabregas), 599
arrhythmias in patients with variant angina, coronary artery surgery for recurrent (Gillette et al.), 236
tachycardia (Fisch and Noble), 551
contractions, premature, in man, vagally medicated suppression of (Weiss, Lattin, and Engelman), 700
function curves (Cheng), 406
left, angiotensin infusion test as method of evaluating (Ronan et al.), 554
left, preclinical abnormality of, in diabetes mellitus (Ahmed et al.), 153
outflow obstruction, left, association of fixed and dynamic (Bloom et al.), 586
outlet, right, late hemodynamic results of fascia lata reconstruction of (Macartney, Scott, and Ionescu), 195
pacing, hemodynamic changes during, in patients with complete heart block and aortic and mitral valvular heart disease (Rosenquist, Gobel, and Wang), 144
pressure, left, frequency response of fluid-filled catheter-micromanometer systems used for measurement of (Scruggs, Pietras, and Rosen), 619
septum, membranous, normal variations in tricuspid valve attachments to, clue to etiology of left ventricle to right atrial communication (Rosenquist and Sweeney), 186
surface in dog, sequence of repolarization on (Autenrieth, Surawicz, and Kuo), 463
threshold in dogs with heart block, effect of stimulation site on (Hughes and Tyres), 68
volumes, left, new method for determination of postmortem, clinico-pathologic correlations (Wissler et al.), 625
right, measurement of using ^{131}I-MAA (Sekimoto and Grover), 212
wall, left, correlation between segmental early relaxation of, and coronary occlusive disease (Wilson et al.), 474
Verapamil, cardiac effects of, electrophysiology and pharmacology of cardiac arrhythmias (Rosen, Wit, and Hoffman), 665

W

Wenckebach periodicity, A-V, incidence of typical and atypical (Denes et al.), 26
Wood, Dr. Paul, a 1952 clinicopathological conference with, at the National Heart Hospital in London (Hudson), 785

Z

Zero reference level, determination of, for left atrial pressure by echocardiography (Chandraratna), 159

A

Acronymic absurdity (Anderson), 279 (Letter to Editor)
Action potentials, monophasic, right atrium, during atrial flutter and fibrillation in man (Gavrilescu and Luca), 199
  right ventricular monophasic, in patients with signs of digitalis overdosage (Cotoi and Dragulescu), 534 (Annot.)
Amputation, successful, by whose standards? (Little), 806 (Annot.)
Aneurysm, idiopathic calcified apical, of left ventricle in asymptomatic child (Franch and Shepherd), 503
  of coronary arteries, atherosclerotic ulcerative disease and associated (Berkoff and Rowe), 153
Angina pectoris with normal coronary arteriograms, hemodynamic and metabolic response to atrial pacing (Mammohansingh and Parker), 555
  variant, due to coronary artery spasm, coronary angiographic, echocardiographic, and electrocardiographic studies on patient with (Widlansky et al.), 631
Announcements, 130, 282, 412, 544, 682, 816
Annulus, aortic valve, in man, age-related changes in size of (Krovetz), 569
Antikaliuretic drugs, increasing the inotropic effect and toxic dose of digitalis by administration of, further evidence for cardiac effect of diuretic agents (Seller et al.), 56
Aortic insufficiency, congenital, atypical phonocardiographic presentation of a patient with (Kerin, Davis, and Schwartz), 75
  stenosis, experimental, effects of tachycardia on adequacy of subendocardial oxygen delivery in (Brazier and Buckberg), 222
  valve annulus in man, age-related changes in size of (Krovetz), 569
Aortitis syndrome, paroxysmal hypertension in (Tanaka et al.), 369
Arrhythmias and ST-segment changes in elderly patients during barium enema studies, incidence of (Roeske et al.), 688
  atrial, complex, studied by suction electrode technique (Cotoi and Dragulescu), 241
  cardiac, and electrocardiogram, effects of intravenous verapamil on (Heng et al.), 487
    electrophysiology and pharmacology of, cardiac effects of diphenylhydantoin (Wit, Rosen, and Hoffman), 265, 397
      quinidine and procaine amide, B (Hoffman, Rosen, and Wit), 117
      IX. Cardiac electrophysiologic effects of beta-adrenergic receptor stimulation and blockade, A (Wit, Hoffman, and Rosen), 521; Part B, 665; Part C, 795.
  exertional, quinidine plasma concentration and (Gey et al.), 19
Arterial disease, cause of (Klobec), 811 (Letter to Editor)
  oxygen saturation, pulmonary, during treadmill exercise, discriminative index of functional class (Ashley et al.), 463
Arteries, cerebral, spasm, constriction, and hypertensive (Byrom), 676 (Annot.)
Arteriograms, coronary, normal, angina pectoris with, hemodynamic and metabolic response to atrial pacing (Mammohansingh and Parker), 555
Arteriography, coronary, complications of selective, by Judkins technique and their prevention (Shaw, Gnoj, and Fisher), 353
Artery, right pulmonary, flow murmur associated with partial occlusion of (Cohen et al.), 376
  spasm, coronary, coronary angiographic, echocardiographic, and electrocardiographic studies on patient with variant angina due to (Widlansky et al.), 631
Arthritis, rheumatoid, conduction system in, with complete atrioventricular block (Lev et al.), 78
ASD, ostium primum, superior QRS axis in, a proposed mechanism (Borkon et al.), 215
Asynergy, reversibility of left ventricular, by nitroglycerin in coronary artery disease (Reddy et al.), 479
Atherosclerotic heart disease, etiology of, (Eskwith), 809 (Letter to Editor)
  ulcerative disease and associated aneurysms of coronary arteries (Berkoff, and Rowe), 153
Atrial arrhythmias, complex, studied by suction electrode technique (Cotoi and Dragulescu), 241
  fibrillation and flutter in man, right atrium monophasic action potentials during (Gavrilescu and Luca), 199
    prolonged, sinus rhythm after, complicated by sinus arrest and syncope (Reeve et al.), 127 (Letter to Editor)
  flutter and fibrillation in man, right atrium monophasic action potentials during (Gavrilescu and Luca), 199
  pacing, hemodynamic and metabolic response to, angina pectoris with normal coronary arteriograms (Mammohansingh and Parker), 555
  standstill, persistent, in patients affected with the facio-scapulo-humeral (Landouzy Dejerine) type of muscular dystrophy, a fortuitous risk or not? (Bensaid), 809 (Letter to Editor)
Atrioventricular block, conduction system in rheumatoid arthritis with complete (Lev et al.), 78
  conduction, effects of dobutamine on (Bianchi et al.), 474
  conduction in man, electrophysiologic effects of tolamolol on (Ruskin et al.), 755
    patterns of, in children (Pahlajani, Miller, and Serratto), 165
  pathway, accessory, body surface isopotential mapping in Wolff-Parkinson-White syndrome, noninvasive method to determine localization of (Yamada et al.), 721
Atrium, right, monophasic action potentials during atrial flutter and fibrillation in man (Gavrilescu and Luca), 199
A-V block, Wenckebach, frequent feature following heavy physical training (Meytes et al.), 426
Axis, superior QRS, in ostium primum ASD, a proposed mechanism (Borkon et al.), 215

B

Barium enema studies, incidence of arrhythmias and ST-segment changes in elderly patients during (Roeske et al.), 688
Blood flow, influence of variations in, on renal A-V oxygen difference and renal oxygen consumption in heart failure, clinical study (Nitter-Hauge and Brodwall), 445
  pressure and heart rate at work and at home, twenty-four hour automatic monitoring of (Schneider and Costiloe), 695
Books received, 130, 281, 411, 543, 682, 815

Contractile element shortening, velocity of, in constrictive pericarditis and the effect of pulsus paradoxus (Lewis et al.), 4
Contractility and coordination, cardiac, early and late effects of coronary bypass operation on (Starr and MacVaugh), 179
ventricular, correlation of abnormal Q waves, coronary pathology, and (Gottlieb et al.), 451
Coronary angiographic, echocardiographic, and electrocardiographic studies on patient with variant angina due to coronary artery spasm (Widlansky et al.), 631
arteries, atherosclerotic ulcerative disease and associated aneurysms of (Berkoff and Rowe), 153
arteriography, complications of selective, by Judkins technique and their prevention (Shaw, Gnoj, and Fisher), 353
artery, circumflex, congenital absence of (Liu and Lupton), 127 (Letter to Editor) Reply, 128
disease, comparative hemodynamic effects of placebo and oral isosorbide dinitrate in patients with significant (Kasparian et al.), 68
reversibility of left ventricular asynergy by nitroglycerin in (Reddy et al.), 479
use of noninvasive methods in evaluation of left ventricular performance in coronary artery disease, relation of systolic time intervals to angiographic assessment of coronary artery disease severity (Meng et al.), 134
bypass operation, early and late effects of, on cardiac contractility and coordination (Starr and MacVaugh), 179
surgery, serum enzyme changes following (De Ponti, Pioselli, and De Vita), 535 (Annot.)
heart disease, amplitude of the first heart sound at rest and during exercise in normal subjects and in patients with (Bergman and Blomqvist), 714
hemodynamics during reperfusion following acute coronary ligation in dogs (Parker et al.), 593
insufficiency, clinical evaluation of perhexiline maleate in treatment of patients with (Masoni, Tomasi, and Oriani), 145
ligation in dogs, coronary hemodynamics during reperfusion following acute (Parker et al.), 593
occlusion, nitroglycerin treatment following (Van Harn and Meester), 587
pathology, correlation of abnormal Q waves and ventricular contractility (Gottlieb et al.), 451
Counterpulsation, external, for cardiogenic shock, following cardiopulmonary bypass surgery (Wright), 231

D

Defibrillators, energy levels of commercial (Fazzini, Marchi, and Torrini), 409 (Annot.)
Defibrination, hemodynamic effects of slow and rapid, with defibrizyme, thrombin-like enzyme from venom of timber rattlesnake (Bonilla, DiClementi, and MacCarter), 43
Defibrizyme, hemodynamic effects of slow and rapid defibrination with, the thrombin-like enzyme from venom of timber rattlesnake (Bonilla, DiClementi, and MacCarter), 43
Dexamethasone, effects of, on myocardial cells in early phase of acute myocardial infarction (Spath and Lefer), 50
Diabetes and the heart (Scott), 283
mellitus, left ventricular function in (Rubler), 538 (Letter to Editor)
Digitalis, increasing the inotropic effect of and toxic dose of, by administration of antikaliuretic drugs, further evidence for a cardiac effect of diuretic agents (Seller et al.), 56
overdosage, right ventricular monophasic action potential in patients with signs of (Cotoi and Dragulescu), 534 (Annot.)
Diphenylhydantoin, cardiac effects of, electrophysiology and pharmacology of cardiac arrhythmias (Wit, Rosen, and Hoffman), 265, 397
Diverticular disease and varicose veins (Latto), 274 (Annot.)
Dobutamine and dopamine, effects of, comparative systemic and regional hemodynamic (Robie and Goldberg), 340
effects of, on atrioventricular conduction (Bianchi et al.), 474

Dogs, coronary hemodynamics during reperfusion following acute coronary ligation in (Parker et al.), 593
Dopamine and dobutamine, effects of, comparative systemic and regional hemodynamic (Robie and Goldberg), 340
Down's syndrome, relationships of tricuspid valve to membranous ventricular septum in, without endocardial cushion defect, study of 28 specimens, 14 with ventricular septal defect (Rosenquist et al.), 458

E

ECG leads in multistage stress testing, comparative yield of (Phibbs and Buckels), 275 (Annot.)
transmitter, inexpensive portable (Uhley), 607
Echocardiography (Joyner), 413
Electrocardiogram, effects of intravenous verapamil on cardiac arrhythmias and (Heng et al.), 487
Electrode technique, complex atrial arrhythmias studied by suction (Cotoi and Dragulescu), 241
Encephalomyocarditis (EMC) virus infection of the femoral vein of newborn mice (Burch and Harb), 468
Endocardial cushion defect, relationships of tricuspid valve to membranous ventricular septum in Down's syndrome without, study of 28 specimens, 14 with ventricular septal defect (Rosenquist et al.), 458
Endomyocardial fibrosis and cardiomegaly of unknown origin, studies on the experimental production of, by dietary means (McKinney), 206
Endocarditis, thrombotic, nonbacterial, in Japanese autopsy sample, review of eighty cases (Chino et al.), 190
Enzyme changes, serum, following coronary bypass surgery (De Ponti, Pioselli, and De Vita), 535 (Annot.)
thrombin-like, from venom of timber rattlesnake, hemodynamic effects of slow and rapid defibrination with defibrizyme (Bonilla, DiClementi, and MacCarter), 43
Exercise, isometric, effects of age on responses to isometric handgrip in noninvasive screening for cardiovascular disease (Kino et al.), 575

F

Fallot, tetralogy of, prognosis of right bundle branch block and left anterior hemiblock after intracardiac repair of (Cairns), 549
Femoral vein of newborn mice, encephalomyocarditis (EMC) virus infection of (Burch and Harb), 468
Ferrokinetic studies in acute myocardial infarction (Barash and Djaldetti), 159
Fibrinogen and mural thrombosis (Wray and Maurer), 539 (Letter to Editor)
Fibrosis, endomyocardial, and cardiomegaly of unknown origin, studies on the experimental production of, by dietary means (McKinney), 206
Flow murmur associated with partial occlusion of the right pulmonary artery (Cohen, et al.), 376
Frank vectorcardiogram in common ventricle, correlation with anatomic findings (Guller et al.), 290

G

Glycoproteins and serum lipids in acute myocardial infarction (Snyder et al.), 582

H

Heart disease mortality among Black migrants, a study of Ohio residents (1960-1967) (Mancuso and Redmond), 380
sound, amplitude of first, at rest and during exercise in normal subjects and in patients with coronary heart disease (Bergman and Blomqvist), 714
Heart sound—continued
first, and mitral valve tension (Yellin, Frater, and Laniado), 277 (Letter to Editor)
and second (Shakibi), 680 (Letter to Editor)
valve, ideal artificial (Maranhão et al.), 409
Hemiblock, left anterior, after intracardiac repair of tetralogy of Fallot, prognosis of right bundle branch block and (Cairns et al.), 549
Hemodynamics, coronary, during reperfusion following acute coronary ligation in dogs (Parker et al.), 593
effects of dopamine and dobutamine, comparative systemic and regional (Robie and Goldberg), 340
Hemolysis in Starr-Edwards cloth-covered mitral valve prostheses (Wanderman et al.), 405 (Annot.)
Hemosiderosis, massive myocardial, structure-function conference at National Heart and Lung Institute (Arnett et al.), 777
Hypertension, paroxysmal, in aortitis syndrome (Tanaka et al.), 369
severe, minoxidil in, value when conventional drugs have failed (Dormois, Young, and Nies), 360
Hyperthyroidism, single-dose block-replace regimes in the treatment of (Wise, Marion, and Pain), 273 (Annot.)
Hypertrophy, left ventricular, electrical axis and voltage criteria of (Talbot), 420
Hypotension, orthostatic, mechanisms and management (Ibrahim, Tarazi, and Dustan), 513

I

Infancy, early, corrective surgery for congenital cardiovascular defects in (Sade, Williams, and Castaneda), 656
Infarction, myocardial (Burch), 275 (Annot.)
advantages of vasospastic cause of (Hellstrom), 545
acute, effects of dexamethasone on myocardial cells in early phase of (Spath and Lefer), 50
ferrokinetic studies in (Barash and Djaldetti), 159
in newborn (Bonilla), 810 (Letter to Editor)
pericarditis of, review of literature with case presentations (Khan), 788
serum lipids and glycoproteins in (Snyder et al.), 582
sexual problems after (Bloch, Maeder, and Haissly), 536 (Annot.)
significance of bundle branch block during (Nimetz et al.), 439
sudden appearance of systolic murmur in (Lie, Wright, and Titus), 507
Insufficiency, congenital aortic, atypical phonocardiographic presentation of a patient with (Kerin, Davis, and Schwartz), 75
Ischemic heart disease, left ventricular function in, assessment by noninvasive techniques (Naqvi, Chisholm, and Shane), 312
Isometric exercise, effects of age on responses to isometric handgrip in noninvasive screening for cardiovascular disease (Kino et al.), 575
Isoproterenol, electrophysiologic effects of, on cardiac conduction system in man (Vargas, Akhtar, and Damato), 25
Isosorbide dinitrate, hemodynamic and metabolic effects of, in chronic congestive heart failure (Gray et al.), 346
oral, and placebo, comparative hemodynamic effects of, in patients with significant coronary artery disease (Kasparian et al.), 68

J

Judkins technique, complications of selective coronary arteriography by, and their prevention (Shah, Gnoj, and Fisher), 353

K

KCl tablet, a safe (Czoniczer), 410

L

Left ventricle, contractility of hypertrophied human, in chronic pressure and volume overload (Mehmel, Mazzoni, and Krayenbuehl), 236
Lesions, myocardial, in sudden unexpected coronary death (Haerem), 562
Lung, physical and radiologic examination of the, in evaluation of cardiac disease (Basta, Lerona, and January), 255

M

Man, of a normal old (Burch), 123 (Annot.)
Mice, encephalomyocarditis (EMC) virus infection of femoral vein of newborn (Burch and Harb), 468
Minoxidil in severe hypertension, value when conventional drugs have failed (Dormois, Young, and Nies), 360
Mitral leaflet syndrome, emphasis on billowing, problem of nonejection systolic clicks and associated mitral systolic murmurs (Barlow and Pocock), 636
  systolic murmurs, problem of nonejection systolic clicks and associated, emphasis on billowing mitral leaflet syndrome (Barlow and Pocock), 636
  valve disease in childhood, surgical management of severe (Gotsman and Van der Horst) 685
    in Noonan's syndrome, systolic prolapse of (Towne et al.), 499
    prostheses, cloth-covered, hemolysis in Starr-Edwards (Wanderman et al.), 405 (Annot.)
    tension, first heart sound and (Yellin, Frater, and Laniado), 277 (Letter to Editor),
Mortality, heart disease, among Black migrants, a study of Ohio residents (1960-1967) (Mancuso and Redmond), 380
Murmurs, mitral systolic, problem of nonejection systolic clicks and associated, emphasis on billowing mitral leaflet syndrome (Barlow and Pocock), 636
  systolic, sound envelope averaging and the differential diagnosis of (Karpman et al.), 600
    sudden appearance of, in acute myocardial infarction (Lie, Wright, and Titus), 507
Muscular activity, pain associated with (Rodbard), 84
Myasthenia gravis, heart in (Gibson), 389
Myocardial cells, effects of dexamethasone on, in early phase of acute myocardial infarction (Spath and Lefer), 50
  infarction (Burch), 275 (Annot.)
    acute, effects of dexamethasone on myocardial cells in early phase of (Spath and Lefer), 50
      ferrokinetic studies in (Barash and Djaldetti), 159
      serum lipids and glycoproteins in (Snyder et al.), 582
      significance of bundle branch block during (Nimetz et al.), 439
      sudden appearance of systolic murmur in (Lie, Wright, and Titus), 507
    advantages of vasospastic cause of (Hellstrom), 545
    in newborn (Bonilla), 810 (Letter to Editor)
    pericarditis of, review of literature with case presentation (Khan), 788
    sexual problems after (Bloch, Maeder, and Haissly), 536 (Annot.)
  lesions in sudden unexpected coronary death (Haerem), 562
Myocarditis, acute nonspecific, Stokes-Adams attacks due to (Lim et al.), 172

N

Newborn, myocardial infarction in (Bonilla), 810 (Letter to Editor)
Nitroglycerin in coronary artery disease, reversibility of left ventricular asynergy by (Reddy et al.), 479
  oral, as prophylactic antianginal drug, clinical, physiologic, and statistical evidence of efficacy based on a three-phase experimental design (Winsor and Berger), 611
Nitroglycerin—continued
  treatment following experimental coronary occlusion (Van Harn and Meester), 587
Noonan's syndrome, systolic prolapse of mitral valve in (Towne et al.), 499

O

Obstruction, pulmonary outflow tract, hemodynamic effects of supraventricular tachycardia in ventricular septal defect with (Steeg and Hordof), 245
Ostium primum ASD, the superior QRS axis in, a proposed mechanism (Borkon et al.), 215
Overload, chronic pressure and volume, contractility of hypertrophied human left ventricle in (Mehmel, Mazzoni, and Krayenbuehl), 236
Oxygen delivery, subendocardial, in experimental aortic stenosis, effects of tachycardia on adequacy of (Brazier and Buckberg), 222
  saturation, pulmonary arterial, during treadmill exercise, discriminative index of functional class (Ashley et al.), 463

P

Pacemaker nonsense (Schatz, Wiener, and Brest), 677 (Annot.)
  survival for 5.5 years (Parsonnet et al.), 407 (Annot.)
  transvenous, probable postcardiotomy syndrome following implantation of, report of first case, (Kaye, Frankl, and Arditi), 627
Pain associated with muscular activity (Rodbard), 84
Perhexiline maleate, clinical evaluation of, in treatment of patients with chronic coronary insufficiency (Masoni, Tomasi, and Oriani), 145
Pericarditis, acute bacterial, in children, report of 25 cases (Okoroma, Perry, and Scott), 709
  constrictive, velocity of contractile element shortening in, and effect of pulsus paradoxus (Lewis et al.), 4
  of myocardial infarction, review of literature with case presentation (Khan), 788
Peripheral arterial disease, metabolic and cardiovascular abnormalities in patients with (Vyden et al.), 703
Pharmacokinetics, quinidine, effect of congestive heart failure on (Crouthamel), 335
Phonocardiographic presentation, atypical, of a patient with congenital aortic insufficiency (Kerin, Davis, and Schwartz), 75
Placebo and oral isosorbide dinitrate, comparative hemodynamic effects of, in patients with significant coronary artery disease (Kasparian et al.), 68
Postcardiotomy syndrome, probable, following implantation of transvenous pacemaker, report of the first case, (Kaye, Frankl, and Arditi), 627
Procaine amide and quinidine, cardiac effects of, electrophysiology and pharmacology of cardiac arrhythmias, VII B (Hoffman, Rosen, and Wit), 117
    pharmacologic effects of, Wolff-Parkinson-White syndrome (Mandel et al.), 744
Prostheses, mitral valve, hemolysis in cloth-covered (Wanderman et al.), 405 (Annot.)
Protamine-renografin chemical embolus (Iannone), 678 (Annot.)
Pulmonary arterial oxygen saturation during treadmill exercise, discriminative index of functional class (Ashley et al.), 463
  artery, right, flow murmur associated with partial occlusion of (Cohen et al.), 376
  outflow tract obstruction, hemodynamic effects of supraventricular tachycardia in ventricular septal defect with (Steeg and Hordof), 245
Pulsus paradoxus, velocity of contractile element shortening in constrictive pericarditis and the effect of (Lewis et al.), 4

Q

Q-waves, correlation of abnormal, coronary pathology, and ventricular contractility (Gottlieb et al.), 451
QRS axis, superior, in ostium primum ASD, a proposed mechanism (Borkon et al.), 215
  phase progression indicator (Lee), 123 (Annot.)
Quinidine and procaine amide, cardiac effects of, electrophysiology and pharmacology of cardiac arrhythmias, VII B (Hoffman, Rosen, and Wit), 117
  pharmacokinetics, congestive heart failure, effect of, on (Crouthamel), 335
  plasma concentration and exertional arrhythmia (Gey et al.), 19

R

Rattlesnake, timber, venom of, hemodynamic effects of slow and rapid defibrination with defibrizyme, thrombin-like enzyme from (Bonilla, DiClementi, and MacCarter), 43
Renal A-V oxygen difference and renal oxygen consumption in heart failure, influence of variations in blood flow on (Nitter-Hauge and Brodwall), 445
  failure, acute, urography in (Cattell and Fry), 124 (Annot.)
Resuscitation, cardiac, complication of (Jeong and Caccamo), 680
  cardiopulmonary, physician education in (Duke), 406 (Annot.)
Reviewers, acknowledgement to, 683
Rheumatoid arthritis with complete atrioventricular block, conduction system in (Lev et al.), 78
Right bundle branch block during transvenous ventricular pacing (Abernathy and Crevey), 774

S

Septum, membranous ventricular, relationships of tricuspid valve to, in Down's syndrome without endocardial cushion defect, study of 28 specimens, 14 with ventricular septal defect (Rosenquist et al.), 458
Serum enzyme changes following coronary bypass surgery (De Ponti, Pioselli, and De Vita), 535 (Annot.)
  lipids and glycoproteins in acute myocardial infarction (Snyder et al.), 582
Shock, cardiogenic, following cardiopulmonary bypass surgery, external counterpulsation for (Wright), 231
Sinoatrial Wenckebach phenomenon, atypical (Ector, Kesteloot, and De Geest), 538 (Letter to Editor)
Sinus node re-entrant tachycardia in man (Weisfogel et al.), 295
    re-entry and sinus node tachycardia (Pahlajani, Miller, and Serratto), 305
  rhythm after prolonged atrial fibrillation complicated by sinus arrest and syncope (Reeve et al.), 127 (Letter to Editor)
Skeletal muscle abnormality, idiopathic cardiomyopathy and (Isaacs and Muncke), 767
Smoking and cardiovascular disease (Seltzer), 125 (Annot.)
Spasm, constriction, and hypertensive cerebral arteries, (Byrom), 676 (Annot.)
ST-segment changes, arrhythmias and, in elderly patients during barium enema studies, incidence of (Roeske et al.), 688
  segment isolation and quantification as means of improving diagnostic accuracy in treadmill stress testing (Forlini et al.), 431
Starr-Edwards cloth-covered mitral valve prostheses, hemolysis in (Wanderman et al.), 405 (Annot.)
Stenosis, aortic, experimental, effects of tachycardia on adequacy of subendocardial oxygen delivery in (Brazier and Buckberg), 222
  valvular pulmonic, natural history of (Mody), 317
Stokes-Adams attacks due to acute nonspecific myocarditis (Lim et al.), 172
Stress testing, multistage, comparative yield of ECG leads in (Phibbs and Buckels), 275 (Annot.)
    ST-segment isolation and quantification as means of improving diagnostic accuracy in treadmill (Forlini et al.), 431
Subendocardial oxygen delivery in experimental aortic stenosis, effects of tachycardia on adequacy of (Brazier and Buckberg), 222
Supraventricular tachycardia, hemodynamic effect of, in ventricular septal defect with pulmonary outflow tract obstruction (Steeg and Hordof), 245
Syndrome, mitral leaflet, emphasis on billowing, problem of nonejection systolic clicks and associated mitral systolic murmurs (Barlow and Pocock), 636
  probable, postcardiotomy, following implantation of transvenous pacemaker, report of the first case (Kaye, Frankl, and Arditi), 627
Systolic murmurs, sound envelope averaging and the differential diagnosis of (Karpman et al.), 600
  time intervals, relation of, to angiographic assessment of coronary artery disease severity use of noninvasive methods in evaluation of left ventricular performance in coronary artery disease (Meng et al.), 134

T

Tablet, KCl, a safe (Czoniczer), 410 (Letter to Editor)
Tachycardia, effects of, on adequacy of subendocardial oxygen delivery in experimental aortic stenosis (Brazier and Buckberg), 222
  repetitive supraventricular, in context (Castellanos and Myerburg), 131
  sinus node re-entrant, in man (Weisfogel et al.), 296
  sinus node, sinus node re-entry and (Pahlajani, Miller, and Serratto), 305
  supraventricular, hemodynamic effects of, in ventricular septal defect with pulmonary outflow tract obstruction (Steeg and Hordof), 245
  ventricular, new iatrogenic possibility (Fazzini, Marchi, and Pucci), 805 (Annot.)
Technicians and equipment, of keeping busy (Burch), 408 (Annot.)
Testing, stress, ST-segment isolation and quantification as means of improving diagnostic accuracy in treadmill (Forlini et al.), 431
Thrombotic endocarditis, nonbacterial, in Japanese autopsy sample, review of eighty cases (Chino et al.), 190
Tilt, upright, effect of, on volume of failing human left ventricle (Stefadouros et al.), 735
Tolamolol, electrophysiologic effects of, on atrioventricular conduction in man (Ruskin et al.), 755
Transducer, ultrasonic multiple, cardiac imaging system, diagnostic accuracy of (Popp, Brown, and Harrison), 329
Transmitter, ECG, inexpensive portable (Uhley), 607
Transvenous ventricular pacing, right bundle branch block during (Abernathy and Crevey), 774
Treadmill exercise, pulmonary arterial oxygen saturation during, discriminative index of functional class (Ashley et al.), 463
  stress testing, ST-segment isolation and quantification as means of improving diagnostic accuracy in (Forlini et al.), 431
Tricuspid valve, relationships of, to membranous ventricular septum in Down's syndrome without endocardial cushion defect, study of 28 specimens, 14 with ventricular septal defect (Rosenquist et al.), 458

U

Urography in acute renal failure (Cattell and Fry), 124 (Annot.)

V

Valvular heart disease, virus (Ward), 804 (Annot.)
Varicose veins and diverticular disease (Latto), 274 (Annot.)
Vasospastic cause of myocardial infarction, advantages of (Hellstrom), 545
Vectorcardiogram, Frank, in common ventricle, correlation with anatomic findings (Guller et al.), 290
Ventricle, common, Frank vectorcardiogram in, correlation with anatomic findings (Guller et al.), 290
left, human, effect of upright tilt on volume of failing (Stefadouros et al.), 735
in asymptomatic child, idiopathic calcified apical aneurysm of (Franch and Shepherd), 503
Ventricular asynergy, left, reversibility of, by nitroglycerin in coronary artery disease (Reddy et al.), 479
contractility, correlation of abnormal Q waves, coronary pathology, and (Gottlieb et al.), 451
function, left, in diabetes mellitus (Rubler), 538 (Letter to Editor)
in ischemic heart disease, assessment by noninvasive techniques (Naqvi, Chisholm, and Shane), 312
pre-excitation, Wolff-Parkinson-White syndrome: mechanocardiographic study on the mechanical consequences of (Ishikawa et al.), 35
septal defects, etiology of right bundle branch block pattern after surgical closure of (Okoroma et al.), 14
relationships of tricuspid valve to membranous ventricular septum in Down's syndrome without endocardial cushion defect, study of 28 specimens, 14 with a (Rosenquist et al.), 458
Ventricular septal defects—continued
with pulmonary outflow tract obstruction, hemodynamic effects of supraventricular tachycardia in (Steeg and Hordof), 245
septum, membranous, relationships of tricuspid valve to, in Down's syndrome without endocardial cushion defect, study of 28 specimens, 14 with ventricular septal defect (Rosenquist et al.), 458
tachycardia, new iatrogenic possibility (Fazzini, Marchi, and Pucci), 805 (Annot.)
Verapamil, effects of intravenous, on cardiac arrhythmias and on electrocardiogram (Heng et al.), 487
Virus valvular heart disease (Ward), 804 (Annot.)

W

Wenckebach A-V block, frequent feature following heavy physical training (Meytes et al.), 426
phenomenon, atypical sinoatrial (Ector, Kesteloot, and De Geest), 538 (Letter to Editor)
Wolff-Parkinson-White syndrome, body surface isopotential mapping in, noninvasive method to determine the localization of the accessory atrioventricular pathway (Yamada et al.), 721
mechanocardiographic study on the mechanical consequences of ventricular pre-excitation (Ishikawa et al.), 35
of simplifying classification of, (left, right, and septal types of WPW syndrome), (Burch), 807 (Annot.)
pharmacologic effects of procaine amide (Mandel et al.), 744
